Lahore, Pakistan | areebaf238@gmail.com | Git <https://github.com/AreebaFatima-101> | <https://www.linkedin.com/in/areeba-fatima-913820334>

PROFESSIONAL SUMMARY

Detail-oriented Computer Science student with current gpa of **3.87** having strong analytical, problem-solving, and structured reasoning skills. Motivated Computer Science student with a strong foundation in programming, database management, software development, and problem-solving. Skilled in C++, Java, Object-Oriented Programming, and database design, with hands-on experience in academic projects. Quick learner with strong analytical thinking and attention to detail. Passionate about emerging technologies, artificial intelligence, and continuous professional growth.

SKILLS

- **Analytical & Evaluation Skills:** Data Evaluation & Validation, Decision Justification & Documentation, Structured Analysis & Reasoning, Attention to Detail, Fact-Checking & Accuracy Verification
- **Technical Skills:** Data Visualization & Analysis, SQL, Data Structures & Algorithms, OOP, JAVA(basics), HTML&CSS, Graphics Designing, Freelancing, UI/UX basics, Microsoft power BI, DATA Analytics, CyberSecurity fundamentals

PROJECT EXPERIENCE

- **AICHATBOT** **AI | C++ | OOP**
 - Developed an AI-based chatbot in C++ capable of interacting with users through text-based conversations.
 - Designed a response-handling system to process user queries and generate appropriate replies.
 - Integrated decision-making logic and conditional statements to simulate intelligent interactions.
 - Enhanced problem-solving and programming skills through debugging, testing, and optimizing chatbot functionality.
- **FRONT-END BASED EVENT PLANNER & ORGANIZER** **SQL | Node.js | Css&Html | Design**
 - Developed a frontend-based Event Planner system integrated with an SQL database for efficient event management.
 - Designed user-friendly interfaces for event registration, scheduling, and participant management.
 - Created and managed SQL databases to store event details, user information, and booking records.
 - Implemented SQL queries for data insertion, retrieval, updating, and deletion to ensure smooth system functionality.

ACADEMIC SYSTEMS PROJECT

- **Management Systems | C++ | OOP | DSA | SQL | RARS**
 - Tourism Management System
 - Airline Reservation System
 - Event Planner, Organizer and Management System
 - Assembly Language Calculator

WORK EXPERIENCE

Graphics Designer/Core Member

AWS CLOUD Student Builder Group BULC

03/26 - Present

- Served as an AWS CloudCore Member and Graphics Designer, contributing to both technical and creative initiatives.
- Designed promotional materials, social media content, and event branding to enhance community engagement.
- Assisted in organizing cloud computing workshops, seminars, and technology-focused events, ensuring smooth execution and participation.
- Collaborated with cross-functional teams to promote AWS cloud technologies through effective visual communication

Intern (Remote)

DecodeLabs

06/26 - 7/26

- Completed a remote AI internship at Decode Labs, gaining hands-on experience with artificial intelligence concepts and real-world applications.
- Assisted in AI-related projects, research, and problem-solving tasks while developing technical and analytical skills.
- Collaborated effectively with mentors demonstrating strong communication, adaptability, and teamwork.

EDUCATION

High School (Science)

Society Public School, Lahore

Grade : A+

Intermediate (Science)

Aspire Group Of Colleges, Lahore

Grade : A

Bachelors of Science in Computer Science

Graduating Spring '28

Bahria University Lahore, Punjab, Pakistan

CGPA: **3.28/4.0 (4/8 Semesters Completed)**

RESEARCH INTERESTS

- Artificial Intelligence & Machine Learning
- Data Analytics & Learning Analytics
- Database Design & Integration
- Software Engineering & System Design
- Designing Front End UI/UX
- Cyber Security, CTH, Threat Detection
